

Research Job Opportunity

Required Background: PhD in Chemistry or Chemical Engineering, preferably with 3 years of post-doc research experience

Research field: Chemistry/Electrochemistry of Materials and Fuel Cells

Job offer: Individual job contract for a period of up to 5 years, with a gross salary equivalent to an assistant researcher (at 2010 prices: approximately 45000 euro/year, before tax and social security deductions).

Brief job description: The candidate will join on-going experimental and interdisciplinary R&D work on Fuel Cells and Hydrogen (FC+H), based on in-house core competence in Electrochemistry and Materials Science applied to Energy Systems and will interact both with modeling/simulation and engineering R&D groups and national companies. The current projects' portfolio aims at a wide acceptance and use of FC+H as a clean fuel.

Full job description:

<http://ec.europa.eu/euraxess/> (Jobs): Research Fellow, reference: C2007-FCT/321/2006 – Fuel Cells - INETI- UEQM (2nd call)

Place of work: Lumiar Campus, LNEG, Lisbon, Portugal

Application procedure:

The application should be addressed in English to the E-mail address carmen.rangel@ineti.pt in a Word file or, preferably in a .pdf file format. It should include: 1) a CV (including names and addresses of referees), 2) a covering letter stating the applicant interests as a candidate, and 3) a short research proposal description, which merges his/her interests and background with the reference terms for this call (maximum length 2A4 pages).

Application dead-line: 8th July 2010
