

Open Faculty Positions in Chemical & Biomolecular Engineering at Georgia Tech

The School of Chemical & Biomolecular Engineering at Georgia Tech seeks candidates for multiple tenure-track faculty positions. Successful candidates will develop internationally recognized research programs in a collaborative environment that emphasizes both fundamental and industrially oriented research while contributing to the School's educational excellence.

Outstanding candidates from any field with an interest in working in a chemical and biomolecular engineering program are encouraged to apply, but areas of particular interest include synthetic biology, systems engineering, soft matter, energy sciences and nanomanufacturing.

Candidates should have a Ph.D. in chemical engineering or a related field. To apply, send a single PDF file to faculty.candidates@chbe.gatech.edu that includes a cover letter, curriculum vitae, description of the proposed research program and teaching plans, and a list of at least three professional references.

The School is part of the Georgia Tech College of Engineering. All of Georgia Tech's undergraduate and graduate engineering programs are ranked in the top 10 by U.S. News and World Report. For more information, visit www.chbe.gatech.edu.

Georgia Tech is an equal opportunity employer and a unit of the University System of Georgia.
