

Wayne State University, Faculty Position in Chemical Engineering and Materials Science

The Department of Chemical Engineering and Materials Science at Wayne State University (WSU) seeks applications and nominations for a tenure-track faculty position at the Assistant Professor rank, although exceptional candidates at a higher rank are also invited to apply. Outstanding candidates in all research areas and particularly the following areas will be considered: process systems engineering, sustainable materials and manufacturing, and bio & systems engineering. The successful candidate should possess a Ph.D. degree in Chemical Engineering, Materials Science and Engineering, or a related field, and is expected to develop a federally funded research program that is nationally and internationally recognized, as well as participate in undergraduate and graduate teaching. WSU is a comprehensive research university that offers competitive start-up packages. The Department has been continuously growing, with six new faculty hired in the past five years. Interested candidates must complete an online faculty application. A complete PDF file that includes a cover letter, curriculum vitae, a detailed description of research and teaching plans, reprints of two selected publications, and the names and addresses of at least three references should be submitted on the website (posting number: 042302):

For further information, please contact Professor Yinlun Huang, Chair, Faculty Search Committee (yhuang@wayne.edu; 313-577-3771). Review of applications will begin December 31, 2016 and continue until the position is filled. "Wayne State University is a premier, public, urban research university located in the heart of Detroit where students from all backgrounds are offered a rich, high quality education. Our deep rooted commitment to excellence, collaboration, integrity, diversity and inclusion creates exceptional educational opportunities preparing students for success in a diverse, global society. WSU encourages applications from women, people of color, and other underrepresented people. Wayne State is an affirmative action/equal opportunity employer."
