

BSTC

Biomufacturing Science
and Technology Consortium

When

Summit: May 22-23, 2017

Advanced Training:

May 24-26, 2017

Where

UMass Faculty Club, Boston
32nd Floor, 1 Beacon St Boston,
MA 02108
(617) 287-3030

Who Should Attend

Biopharmaceutical Industry
Professional
Biotechnology Technology Providers
Material Suppliers
Government Agencies
Academic Faculty and Students

Recognitions

The previous summits have been highly recognized by the scientists and engineers from biopharmaceutical manufacturers, technology/system providers, raw material suppliers and agencies in the area of development, manufacturing, and engineering, from across the country and abroad.

Summit Theme

Beyond monoclonal antibodies

S1. Cell therapeutics Dev. & Mfg.

S2. Biomufacturing Innovation

S3. Protein therapeutics Dev. & Mfg.

S4. Gene therapeutics Dev. & Mfg.

6th Annual Biopharmaceutical Summit

May 22-23: Workshop on “Beyond mAbs”

May 24-26: Short Course on “Advanced Industrial Bioprocessing”

(Due to the space limitation, the open registration will be closed soon)

Featured speakers

Julie Murrell, Ph.D.
Head of Cell Therapy
MilliporeSigma

Lucinda (Cindy)
Buhse, Ph.D.
Director, FDA Office
of Testing and
Research

Dr. Mark Klempner
CEO and Exe Vice-
Chancellor of
Umass Medical and
Massbiologics

Morrey Atkinson, Ph.D.
Vice President
Biologics Development
at Bristol-Myers Squibb

- Meet with companies proposing new research projects
- Hear about industry collaborative research projects
- View posters and videos of ongoing research
- Learn more from your future employer

For detail summit information, you can stop by our consortium website,
