

About the Ph.D. Program in Chemical Engineering

Notre Dame is an R-1 institution whose research is dedicated to advancing human understanding through research and scholarship, and will put it to use as a powerful means for doing good in the world.

With 27 research core facilities and professional development support from the Graduate School, graduate students at Notre Dame not only engage in world-class research but also launch their careers while earning their Ph.D. and making a home for themselves in the graduate student community at Notre Dame.

Find your home at Notre Dame.

CBE@ NOTRE DAME

104 Graduate students

32 Faculty

Multidisciplinary research groups

Powerful on-campus support for research, professional development, and personal growth

RESEARCH AREAS

Bioengineering and Diagnostics

Energy and Sustainability

Molecular Simulation and Data Science

Soft Matter and Nanomaterials

Fall Application deadline

December 15, priority

January 1, regular

Apply at graduateschool.nd.edu

Department of Chemical and Biomolecular Engineering
250 Nieuwland Hall
Notre Dame, IN 46556
